

Activity 1: Hello World and the Circle Demo (Objects and Classes)

Follow the instructions in slide set 2 for the “Hello World” program and slide set 3 for the “The Circle Demo” to carry out the activities as instructed.

Due Date: 2355hrs 15th April, 2016.

Submission details:

Hello World: Complete set of compilation files when compiled and run using the terminal/command prompt.

The Circle Demo: Bundled code in .cs file type.

Both activities should be bundled up in a zip file named using the student admission number.

Also, there should be screen-shots showing the results of each test of the code as evidence.
